# HURCO

## Size is important.

If you're under the impression that Hurco only makes small machines, give us another look. We've been busy designing the right machines to fit nearly every application. Our current VMCs range from 24 inches to 84 inches and lathes from 6 to 10 inches. And they all come with lots of Best In Class features that are

standard—not add-ons that nickel and dime you to death.

Additionally, they all come with WinMax® Control Software that takes machining to the next level.

Contact Hurco or your local distributor to find the size that fits you.
